## CLOVER FARM

Clover farm is a diversified, fulltime family farm that provides wholesome food and sustainably produced products for our community. We are a business that others can learn from, and we are a family that helps our neighbors. We work in partnership with our animals and with the natural world. We support other farmers who share our vision of sustainable agriculture, and we work to be as selfsufficient as possible.

# Immersed in nature

Exploring about the possibility that happens when you tried something you never tried.

SOMETHING

## Let's yourself experience new different things.

Exploring about the possibility that happens when you tried something you never tried. Exploring about the possibility that happens when you tried something you never tried. Exploring about the possibility that happens when you tried something you never tried. Exploring about the possibility that happens when you tried something you never tried. Exploring about the possibility that happens when you tried something you never tried. Exploring about the possibility that happens when you tried something you never tried.

## Exploring about the possibility that happens when you tried something you never tried.

Set in Washington's beautiful Skagit Valley, our fields are bursting with flowers that reflect the season, from fragrant sweet peas in the spring to magnificent dinnerplate dahlias in the fall and countless varieties in between. Research is at the heart of our operation, and we conduct extensive trials to find the very best cut flower varieties, coveted for their scent, stem length, and ethereal qualities.
